**DIGISKILLS:
NETWORK FOR
THE ENHANCEMENT
OF DIGITAL
COMPETENCE SKILLS**

Are you **teaching** in a school, at a university or in other educational institution?

Do you **use digital resources** as part of your classroom practice?

Do you **want to meet** others doing the same and inspire each other?

Connect

Inspire

Learn

In the **Digiskills community** there are **no barriers** among secondary, higher and adult learning practices.

Connect

Community building among numerous educational institutions in Europe supports the exchange of information in this phase. The members of the network empower each other to use, share and exploit unique resources from a wealth of educational practices, within meaningful educational activities.

The community is based on peer-rating. This supports the aim to meet the educational and quality needs of these communities, supported by **DigiSkills Inventory** a social platform where teachers, students, parents and other community members will be able to discover, acquire, discuss and adapt e-learning resources on their topics of interest.

Inspire

Learn

The **DigiSkills Best Practice Guidelines** will support future activities of teachers for the design and implementation of effective resource-based educational activities
